

Item Description: JOY-2-1 FEEDER

Stainless steel vibratory feed hopper for transferring bulk product onto a conveyor or a weigher.

160 Litre capacity hopper as standard, other sizes of hoppers can be made to order. Machine includes an electronic variable speed controller to give a wide range of feed rates to match the rest of the production line.

When used with one of our feed elevators a common control panel includes a timer and sensors to start and stop the feeder automatically if used to feed the hopper of a weigher for example

Specification:

Model	BJ-2-1 Vibratory Feeder
Hopper Volume	150-180L
Dimensions	880*880*1160mm
Power	220V 50Hz single phase
Conveying Ability	0-4.0m ³ / h
Net Weight	70kgs
